K&A photo approval pack 1

Reply like: approve 1,2,5 / reject 3. Nothing changes on the site or in Shopify until you approve.

Part A = replace a live product photo with a tighter re-crop (files ready, NOT uploaded). Part B = crop-position fixes only (no image change). Part C = shoot list.

PART A Product photo re-crops (items 1-22). Item 1 is Mani. Items 1-11 give clear/moderate gain; 12-22 are marginal (x1.1-1.2), skip if you prefer fewer changes.

Every crop is a straight crop of the existing file at 3:4: no resampling, no upscaling, same format. Files: Docs/review-assets/approval-pack-1/recrops/

PART C Shoot list (last page, no approval needed)

Honest count: the full-catalogue check (642 images) found 22 images that clearly benefit, not the 35-45 estimated from the sample. Most studio frames are already tight.
Lifestyle/phone photos (items 8-11, 19-22) are re-cropped from event/UGC shots; confirm those are K&A-owned and consent-cleared (pending-tasks #1) before approving.

PART C I SHOOT LIST (for Suraj, not an approval item)

Things a re-crop cannot fix. Grouped by priority.

#	Group	Products	Problem	What to shoot / do
1	**Lifestyle-only top sellers**	9 pieces: Plum Pleated Structured Corset (Bestseller #4, home page card #1), Ivory Victorian Corset (Bestseller #2), Chintz Blue & White Corset, Carrot Quilted Corset, Electric Blue Jacquard Corset, Mustard Yellow Jacquard Corset, Red Corset With Drape Saree, Teal Quilted Corset, Hot Pink Jacquard Corset	Every image is a phone/event snapshot (seated, half body, small figure). Highest traffic, weakest photos.	Studio head-to-toe set per piece, 3000x4000, face + full outfit; front, back, detail
2	**Mannequin-only products (25)**	Magenta Quilted Corset; Peach Marodi Lehenga; Gunmetal Bustier Lehenga; Black Rhinestone Set; Peach Pita Work; Red Crystal Lehenga; Cherry Red Cut Work; Blue Zardozi Lehenga; Blush Pink Cutdana; Brown Feathered Dupatta Lehenga; Mauve Mirror & Pearl; Pink Cut Out Blouse Lehenga; Purple Haze; Purple 3D Flower; Mauve Zardosi; Brown 3D Flower; Indigo Power Shoulder; Imperial Blue Cowl Neck; Cloud Cream; Cream Embellished; Blue Cutdana; Silver Glass Bead; 3D Tassel Flower Saree; Blush Pink Embellished; Tropical Red 3D Flower	Every image on the product is a mannequin (no face), so no reorder is possible. Breaks the face + outfit rule on cards and pages.	Model shoot, OR you accept them as a documented archive exception
3	**Wide hero per capsule**	Barre Oblique, Indo-Western, Bloom Soiree, Wedding Festive '22, Anarkalis (shares the Signature image), Signature Top Sellers	Heroes are portrait photos in a 2.2:1 banner, so only face + bodice show, outfit is lost. Sources are 1200-1800px wide; a 1323px banner needs about 2650px for Retina.	Landscape editorial frames, 4000px+ wide, face + full outfit with room for the title on one side
4	**Low-resolution product images (8)**	Red Moonga Silk Lehenga; Baby Pink Cut Out Bralette Saree; Avantika black Power Shoulder lehenga; Red 3D Flower Lehenga; Maroon Bridal Lehenga; Ultra Violet Zari Lehenga; Hand Woven Banarasi Lehenga (all 720x1080); Silver Hand Embellished Blouse Saree (1200x1600)	Soft on Retina (the page needs about 1020px; these are 720px) and 2:3, so cards trim about 5% top and bottom.	Re-export from the original files at 3000x4000 (you or the photographer), then I re-check and propose the swap

Not covered here: celebrity/influencer product pages (about 30, consent unverified, pending-tasks #1) and the two images with Instagram handle overlays.
